

# Pre-Biology Program

## PURPOSE

Pre-Biology is the instructional program that is used to service Gifted & Talented (GT) students and provide an accelerated and enriched opportunity for interested students in grades 6 & 7 for the preparation of taking Pre-Advanced Placement Biology in grade 8 and taking the Biology End of Course exam at the completion of the program.

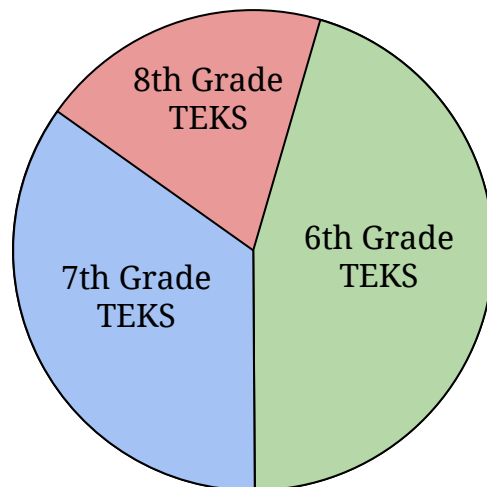

## CURRICULUM

Students in Pre-Biology are expected to master the district science curriculum for grades 6, 7, & 8 before grade 8. The curriculum includes all TEKS in the science content areas for the grade level and is bundled into units of study as outlined in the district scope and sequence.

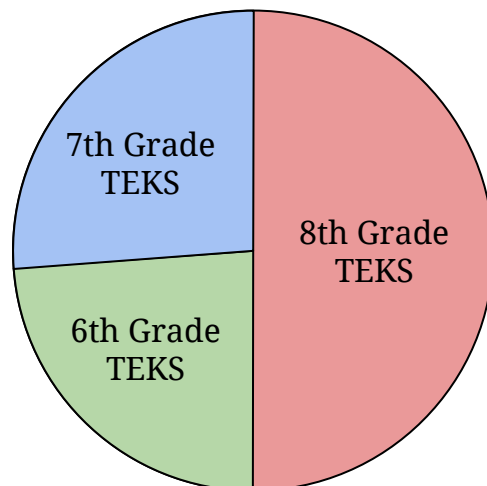

## INSTRUCTIONAL PRACTICES

Students will be instructed using the 5E Instructional Model that involve inquiry and exploration to build knowledge upon experiences. Through Project Based Learning students will make real-world connections to extend their thinking.

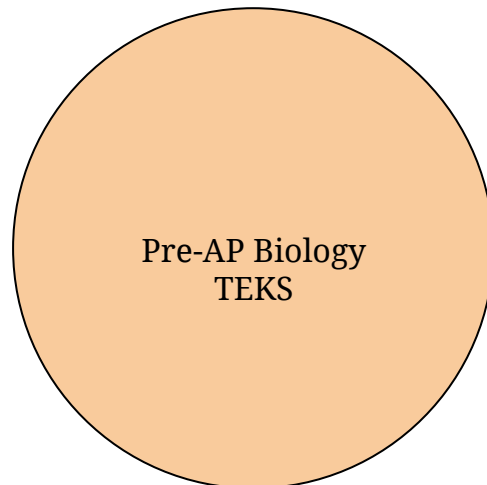

### 6TH GRADE PRE-BIOLOGY

### 7TH GRADE PRE-BIOLOGY

### 8TH GRADE PRE-AP BIOLOGY
