

Remote Learning Resources

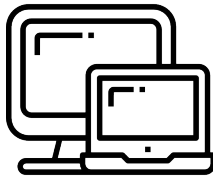

CLEVER

What is Clever?

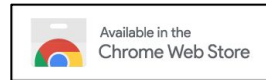

Clever is an easy way for your child to log in to the online programs they use at school. Schools use Clever so students can have all of their digital resources in one place. Clever also eliminates the need to remember multiple usernames and passwords.

If your student is using Clever to learn from home on a laptop or computer, you may need to download the Clever browser extension to ensure some application logins work properly. Downloading the Clever browser extension is important to make sure your student can continue their learning uninterrupted from school, home, or both. Download the extension for your browser by clicking the appropriate image below:

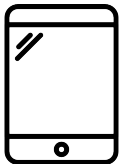

Google Chrome

Mozilla Firefox

Microsoft Edge

The Clever browser extension is not required for iOS devices (e.g. iPads, iPhones) as these devices use the Clever app which acts as the browser extension. Click the App Store link to install:

The Clever portal link for ECISD is:
<https://clever.com/in/eastcentralsd>

Student usernames: 6 Digit Student ID
Student passwords: 6 Digit Student ID
